PROFILE

I'm a Fearless Elevated Expert Directing Unique Solutions — a motion graphics designer, animator, and full-service producer with over 20 years of experience. I create high-impact animated videos, explainer videos, sizzle reels, and music videos from start to finish. I handle the entire production myself — concept, animation in After Effects, and original sound design & music production using my MPC Live 2. You get everything done under one roof with no extra vendors needed.

My work has been featured for clients including Comedy Central, MTV, Smithsonian Institution, HBO, Def Jam Records, PlayStation, and many other brands and artists.

I also specialize in AI-powered solutions. Using Claude and Grok, I help clients quickly turn their ideas into reality — rapidly building websites, generating visuals, creating videos, and developing concepts in hours instead of weeks.

SKILLS

Motion Graphics & Animation

After Effects, Premiere Pro, Adobe Illustrator, Photoshop, Adobe Creative Suite

Design & Branding

Logo Design, Illustration, Photoshop, Brand Identity

Audio Engineer / Music Producer

Original music composition, custom sound beds, scores, and full music production using the Akai MPC Live 2. Every track is produced in-house — no outside composers or sound libraries needed.

AI-Powered Production · Web Design & Rapid Development

Full-stack web design and development — HTML/CSS/JS, Netlify, single-page apps — accelerated by Claude and Grok. Rapid website builds, AI-generated visuals, concept development, and video creation. Ideas that once took weeks now take hours.

Business & Entrepreneurship

Homestead Developer, Project Manager, Consulting, Permaculturist, Landscaper, Animal Husbandry, Investor, Speculator

EXPERIENCE
